

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRB-1114/P1dn
EVM:cjs:jf

April 6, 2011

ATTN: Tim Fiocchi

Please review the attached draft carefully to ensure that it is consistent with your intent. The following are several issues you may wish to consider in your review of this draft.

1. In addition to the provisions identified in your request, I have treated s. 350.137 (2) (intro.) and (a), stats., regarding snowmobile rail crossings. Please let me know if you do not want this included.
2. I have not treated s. 192.29 (3) and (4), stats., to require railroad track equipment to follow the bell sounding requirements for trains. Do you want a bell sounding requirement for railroad track equipment added? Is there a different warning signal requirement you would like to impose?
3. I have not added railroad track equipment to the non-obstruction requirement in s. 192.292, stats. Please let me know if you want this section treated.
4. Because two of the provisions treated in this draft are prohibitions that could subject motorists to forfeitures, I have provided an initial applicability provision. As currently drafted, this provision would allow past violations of s. 346.44, stats., to count toward revocation under s. 343.30 (2j) (a), stats. Please let me know if you want this changed.
5. This draft does not contain a delayed effective date. Please let me know if you want one added.

Please let me know if you would like any changes made to the attached draft or if you have any questions. If the attached draft meets with your approval, let me know and I will convert it to an introducible “/1” draft.
